BUG LiST / CHaT – SCCC Dev. Group #7: Happiness Initiative

Please list bugs

Designers

Have good twitter plugin. I have 2 options up on the test site can you pick one and style it. The template stylesheet you have up is a image not a div. Names of plugins I think the best one so far is **Xhanch - My Twitter Allows style sheets cant get image to show up but maybe you can. Second option which looks nice also is Twitter Profil Widget.**

Bug 1: when adding paragraph content to a "content" page template, the sidebar goes down the page! -JM

Twitterfountain

is a really cool flashy plugin but cant figure out how to get it to use our account. this is by far the coolest if I could configure it not sure what they are doing or if it is just a demo for now or what. take a look if we have time..

CHAT 8/20-8/21/11

This is now a group chat. Add another person.
Melissa Ashforth has joined.
Jennifer Multari (jmulta01@seattlecentral.edu) has joined.
kchiu003@seattlecentral.edu has joined.
Melissa: hey
Jennifer: are we all here. chime in
this way I can shut down the other chat windows i have open
Melissa: don said he would be back in a bit
Jennifer: ivan, you here?
kchiu003@seattlecentral.edu: yes
Melissa: i just messaged him on the other thing letting him know about this
oh there he is
Jennifer: cool
Sent at 10:05 PM on Saturday
kchiu003@seattlecentral.edu: i am working on getting the pages show in the posts
Jennifer: the pages to show in posts? I don't follow....sorry
kchiu003@seattlecentral.edu: page links show in the sidebar in the posts related to
Jennifer: ok, got it. thank you!
Sent at 10:07 PM on Saturday
Melissa: my oh my this forum stuff is crazy so much you can do so far
Jennifer: the one that is replacing the one you had earlier that can't be modified?
Melissa: oh yea this one you have so many options still configureing it and figuring out how to display it
but its crazy you can see some of the options in the dashboard under forums
Jennifer: I'l look at it in a minute. Adding content.
Sent at 10:16 PM on Saturday
Jennifer: Are you here Don?
me: I just walked in.

Melissa: he said about 20 mins when when I was setting up
Jennifer: I have a few design/css changes if you are able...
Melissa: he will be back
me: I'll do any and all that I can
Jennifer: awesome!
me: can you see my messages, Melissa?
Melissa: yep
Jennifer: Okl Don, can you adjust the alignment of the second nav in the sidebar to match the one above, like on page:
http://www.happygroup210.piscescreations.com/Happiness/conduct-a-happiness-initiative/
Melissa: looks like this chat made the rest of my chat stuff not work but thats cool
Jennifer: Also remove the whitespace below the footer
me: Jen, I'm sorry I lost my temper. I guess that I'm concerned that there was a problem I should know about.
White space...
Jennifer: no not at all. it's ok
ya, a the very bottom of the pages
me: I looked at all of the CSS that's there
Melissa: its not there its the html
me: exactly
Melissa: i was going to try and fix that to
looks like a pain
Jennifer: hmmm, weird.
Melissa: i tried to do a html background but it overrides the images
me: I'm a bit stumped. It looks like there's a need to set a background color for that bottom blue (#7dbfe0)
Melissa: or it did in firebug
me: but that would screw up the white of the page itself
screw up, I mean
Melissa: do you know if the foot image has any margin set?
thats the only other thing i can think of
Jennifer: according to firebug it doesn't
have a margin
Melissa: its weird huh
Sent at 10:26 PM on Saturday
me: a thought....
or a question, actually...
if we extended the gif of the gradient at the top...
then extended the gradient at the bottom, so they overlap?
Melissa: we will have to make the page longer no matter what when people put text in
do you think it might mess with that??
me: then gave the html a background color of that blue
well, they're background images
I could be missing something here
it just popped in my head

Jennifer: ya, that might be a problem with addition of content
what?
 Melissa: ill let you guys figure that out sorry
 Jennifer: c'mon problem solver... ;)
 Melissa: having issues getting this thing to show up but its going to RULE when I do
 me: would that mess with content if it's a background image?
or...
 Jennifer: you can always try it
 me: I have an idea
but it requires a lot of changes
header and footer stay the same
set a content div with a background white...
a width of 100%
 kchiu003@seattlecentral.edu: Hey, guys, I made it. look at the posts in
http://www.happygroup210.piscescreations.com/Happiness/youth/
 me: and set the content divs themselves all with a width of 960px or whatever it is
maybe all in a middle wrapper
then set the html to the blue color background
 Jennifer: try it if you think it might work. do a back up of all changed files though in
case it doesn't work.
 Melissa: looks like something weirds going on with that page
hey do you know what time I got back i forgot to start my timer for class
 Jennifer: Ivan, what did you get working?
 me: are you asking me?
about 45 minutes ago
actually about 40 mins
 kchiu003@seattlecentral.edu: display pages in related posts
i get that working
 me: hey kchiu
 kchiu003@seattlecentral.edu: yes?
 Melissa: thanks
 me: I'm sorry to do this but I'll be back in a few mins
 Sent at 10:37 PM on Saturday
 Jennifer: wow, so all those link under app1 ahow up? I only wanted "   Youth
  Apps
  Offices
  Partners
  Youth Survey

Apps
App 1

" like on the main apps page. So if you go to the single posting for App1, you will get the
same nav as the Apps page/posting

kchiu003@seattlecentral.edu: If you need to get working on other posts, you have to add the customer field, but i haven't do it et
and I am going to make the parent title appear first
 Jennifer: OH! I think I know whats causing the whitespace below the header: it might have to do with the social toolbar?
 Sent at 10:40 PM on Saturday
 me: I'm back. Really curious about your theory, Jen.
 Jennifer: ya, i have no idea how to tackle it but it just popped in my head
 Melissa: I just took it all off test it and let me know if it is the issue
 Jennifer: nope, still there
 Melissa: nope still there dont think its the media bar I took it off the pages and its still there do you want me to deactivate it and see then?
 Jennifer: no, i don't think it had anything to do with it now
 me: rats
 Melissa: it shouldent matter because the setting say its not tied to any page
 Sent at 10:44 PM on Saturday
 Melissa: well that sucks now I can not get them back
 me: I would try my idea but only as a last resort
but I think it would work
 Jennifer: look, there are more important things in my opinion. we should focus on the bigger things. I'm thinking about the nav alignment Don. What do you think?
And getting the arrows to alternate on hover
 Melissa: confused
 me: what's the nav alignment?
 Melissa: are you telling me not to get the soical bar back up?
whats the arroiws?
 Jennifer: in the sidebar when there is the second group. like on the youth landing page, you have Social Moguls links below. They are flush left instead of indented like the "Youth" set of links above it.
 Melissa: ivan
 Jennifer: Basically, the whole Social Moguls div needs to scoot to the right to match the set above
 Melissa: can you do something for me real quick
 Sent at 10:50 PM on Saturday
 Melissa: hahaha opera says this page is written in latin because of the text
 Jennifer: hahaha
 Melissa: can someone try something for me i cant seem to get it to do it
I had issues with it and when I did it at school it worked maybe its my pc
 Jennifer: don, can you help melissa? I'm adding content
 Sent at 10:52 PM on Saturday
 me: I fixed the indent issue
 Melissa: don can you help me real quick
 Jennifer: thanks Don
 Melissa: it really wont take long
 kchiu003@seattlecentral.edu: i have a css problem
 http://www.happygroup210.piscescreations.com/Happiness/lead/

me: what's that?
Melissa: can you go to the social toolbar in the dashboard
Sent at 10:55 PM on Saturday
Melissa: this is dumb
kchiu003@seattlecentral.edu: never mind, i fixed
Melissa: i cant do it on my pc I need someone else to do it
anyone
me: sorry,
Jennifer: don are you helping melissa? i don't want to leave her handing
me: hold on...
Jennifer: hanging. ok
Melissa: ivan, don, jennifer anyone it will only take a second
kchiu003@seattlecentral.edu: ?
me: I'm going there
kchiu003@seattlecentral.edu: ok
me: okay
there
Melissa: all i need is someone to put these numbers in 0,52,54,56,58,61,63
Display On Specific Pages
 (4) Melissa Ashforth,Kwan-Ngai Chiu,Donworks,me
            Actions ▼
Melissa Ashforth: area those numbers need to go there
i know it seems dumb i cant do it but really it wont show up if I use my pc when i did it at
sschool it worked
then save settings
Donworks: they were there
me: Don, just before i forget, update the indents also with the happiness pages too, not
just the social mogul pages. thanks
Donworks: but I repasted and saved
Melissa Ashforth: this is dumb maybe the plugin sucks
Donworks: I will fix all those indents tonight
me: okie dokie
Donworks: I'm juggling stuff, I'm sorry. Just timing at the moment
Jen, please send me a list of everything else.
any and all you can think of. I will work tonight and tomorrow am
including the white space, which I will save for last
me: cool, i will send you the list in a bit
Sent at 11:03 PM on Saturday
Kwan-Ngai Chiu: jennifer
i have sth to tell you
me: ya?
Kwan-Ngai Chiu: when you add a post, add the custom field, related_page, value is the
slug of the parent page that related to
this will make the list of pages appear
me: ok, i'll try that in a minute...
Kwan-Ngai Chiu: i will help you to do it too.

Sent at 11:06 PM on Saturday
me: ok, going to try it now
Sent at 11:13 PM on Saturday
Kwan-Ngai Chiu: you know how to find the slug?
Sent at 11:16 PM on Saturday
me: ya, i got, we just need to style it to look like the other sidebar navs
Sent at 11:17 PM on Saturday
Kwan-Ngai Chiu: yes
Sent at 11:18 PM on Saturday
Melissa Ashforth: this one is really cool when I get it working i got it showing but not able to post anything get errors
Sent at 11:19 PM on Saturday
me: thanks Ivan
Melissa Ashforth: you should check it out if anyone has time
Kwan-Ngai Chiu: check what, tell me
Melissa Ashforth: my forum
Donworks: Hey folks, sorry I'm running back and forth. Is there anything else you need from me? I'll be here working in a bit.
Melissa Ashforth: http://www.happ ygroup210.pisce screations.com/ Happiness/what-makes-you-happy /forum/
i have to get it working to get the posts to post and tiopics to post but other then that this plugin rules
me: another css update: make this nav on post pages look like how they should. example page where nav needs to be formatted:http://www.happ ygroup210.pisce screations.com/ Happiness/conte nt-for-make-hap py-decisions/
Donworks: that's simple
no problem
me: thanks!
Sent at 11:24 PM on Saturday
Donworks: I will be back in a bit. If you guys are gone, I will save this chat and review it before getting to the CSS changes.
Melissa Ashforth: im not going anywhere
Donworks: So Melissa, I'll see you shortly and help you as needed.
Melissa Ashforth: except to smoke if i want actually i think i will do that brb
you rule thanks
Kwan-Ngai Chiu has left.
me: ditto on melissa's comment
Sent at 11:27 PM on Saturday
Melissa Ashforth: back why did ivan leave?
Kwan-Ngai Chiu has joined.
Melissa Ashforth: did you acidently leave chat ivan?
Sent at 11:36 PM on Saturday
Kwan-Ngai Chiu: cant chat in here
wow
i was not able to chat in here
Melissa Ashforth: ??

yeah you left the group i added you again
Sent at 11:41 PM on Saturday
Melissa Ashforth: you should be good now
Sent at 11:42 PM on Saturday
Kwan-Ngai Chiu: i have added related_page variable to every post
Melissa Ashforth: grr this is annoying it wont let me post grrr
Kwan-Ngai Chiu: just let you know
Melissa Ashforth: ok
not sure how all thats working
Sent at 11:45 PM on Saturday
me: ok Ivan, looks good. Don, will fix up the css to make it look like the other navs.
what i need from you and Melissa is to place the social toolbar on only the Youth pages
and post pages.
Melissa Ashforth: i woulod love to it wont let me thats what i was trying to get someone
to do don tried it and it wont work
i have the right numbers its not seeing them
Kwan-Ngai Chiu: i found a problem in http://www.happ ygroup210.pisce
screations.com/ Happiness/what- makes-you-happy /
Melissa Ashforth: if i do it on my pc it doesent work but when i sis it at school it worked
fine
ahhh bubbles moved sucks
me: ahhh, needs fixin!
Kwan-Ngai Chiu has left.
Melissa Ashforth: lots of things do looks like image not sahowing up oin the survey and
ahhhh thats just one thing tons of stuff gone
not gone i mean needs work
Kwan-Ngai Chiu has joined.
Melissa Ashforth: how do you keep leaving ivan??
Sent at 11:52 PM on Saturday
Melissa Ashforth: ahhhh hahaha new topic on ahhhh hahahah
allows approval ahhhhh hahahahahha
Sent at 11:54 PM on Saturday
Kwan-Ngai Chiu: ....
Sent at 12:00 AM on Sunday
Melissa Ashforth: now how to approve it
Sent at 12:08 AM on Sunday
Kwan-Ngai Chiu: jennifer, i have updated my post, page, category google doc.
I added the thing we just did.
Sent at 12:11 AM on Sunday
me: ok, that will have to be sent to Travis.
Melissa Ashforth: this works but will need to be configured by them
think so should i continue this forum thing or what?
everything I am doing will have to be redone when it gets to the new server is what i am
saying as well as the survey submit
me: ok, so does the contact form I added to the partners page. it's set up automatically
with your email

Melissa Ashforth: thats fine
 me: This should all be documented in the training docs
so they can do it on their own
 Melissa Ashforth: this forum thing rules and has plenty of info documented to get it to
do what you want but it has soooooo many options
 me: haha
 Melissa Ashforth: ok so ill add that plugin to my plugin page with a link to the user
manual
 me: ok, can you do the same for the contact form?
 Melissa Ashforth: next ill try to get the social media bar to work
 me: sounds good
 Melissa Ashforth: do what? find the link to the plug in??
do i have to do all the plugins or did ivan do his??
 me: ivan, you there?
 Kwan-Ngai Chiu: yes?
 Melissa Ashforth: did you include all your plugins in the doc you sent to travis?
 me: melissa, touch base with ivan on that
 Melissa Ashforth: and is that what you are asking me to do with the contact plugin
jennifer?
 me: yup
 Melissa Ashforth: what is the plugin you used
 Kwan-Ngai Chiu: i think i should put in the doc, right?
 me: Fast Secure Contact Form
 Melissa Ashforth: should be yes or u can add them to my google doc like you did for the
sider thing
did you or are you needing to??
 Kwan-Ngai Chiu: ok
 Melissa Ashforth: ill work on the social media thing and then after that ill try to do all
the plugins so ivan if you still have template stuff to do do that first
if you have time do the plugins
 Sent at 12:22 AM on Sunday
 Melissa Ashforth: are you getting orage around the donate and the translator
 Sent at 12:26 AM on Sunday
 Melissa Ashforth: is whats happynin page supposed to have a forum?
 Sent at 12:29 AM on Sunday
 me: yes, the problem is on the landing page for higher ed,you'll see the box for the same
page but that is a post. I'm not sure how to redirect the links for the post to that page
where you have t he forum. also, the orange boxes are showing up around the donate
button b/c when I added the contact for, you couldn't see the input boxes. so i added to
the css input{border: 1px siolid #the orange hex} but it's doing it on all input fields at this
time..
 Melissa Ashforth: ahhh ok never mind looks like they want one there..
where is your contact forms?
 me: on the partners page
 Sent at 12:32 AM on Sunday

Melissa Ashforth: um can you explain that problem again that is a bit confusing not wure what your asking
 Sent at 12:34 AM on Sunday
 Melissa Ashforth: can your plugin do more then one form??
 Sent at 12:35 AM on Sunday
 me: yes it can
the problem was before i added the css, you couldn't see the input boxes on the form. so i added the orange border to input fields but now its on all input fields like the donate button
 Sent at 12:38 AM on Sunday
 Melissa Ashforth: i got that i was talking about the forum problem... i asked about contact form due to we need one for happyness also and linked at the bottom
 Sent at 12:39 AM on Sunday
 me: oh, the forum: there are two links for the higher ed form, one in the main nav (you created and have the forum there) and one on the landing higher ed landing page but its a post page. I would prefer if we can get that page to go straight to your forum page. that may be a question for Ivan?
when I say "that page", I'm referring to to the post page link on the higher ed landing page. I want it to go to your forum.
or have it "copied" to the post page. which ever.
 Melissa Ashforth: what txt goes in the orange box?
 me: what?
just reference to the forum
question: on the survey page, the happiness logo is missing. are you going to add it?
 Melissa Ashforth: ok
i dont know why its not i gave it the right path
can you give me a to do list also so i dont forget something
 me: sure.
 Melissa Ashforth: its so weird im telling that mediabar where to display and it wont do it its annoying
 Kwan-Ngai Chiu: anything i can help?
 Melissa Ashforth: yea can you link the whats happynin on the huigher education page to the forum page on the whats happynin page
 Sent at 12:50 AM on Sunday
 Kwan-Ngai Chiu: so, that one is not going to the post? go to the whats happnin page?
 Melissa Ashforth: the whats happynin page is a forum
 Kwan-Ngai Chiu: ok
i see
but i dont know if i can make it
i will try
 Melissa Ashforth: all you have to do s take the permalink from the whats happynin page and put it on the image arrows thing
the arrows atag with permalink from the whats happynin page hehe
 Sent at 12:53 AM on Sunday
 Kwan-Ngai Chiu: can't do that, because it is dynamic now, so if you have to change the permalink, it will make it not dynamic

Melissa Ashforth: so the image is dynamic to go to the page it says to?
ahh i see whats going on now
 Kwan-Ngai Chiu: oh, good
i dont have to explain
 Melissa Ashforth: itshe wants it to go to the actua forum its going to the page that
provides a link to the forum
 Kwan-Ngai Chiu: my english sucks
 Melissa Ashforth: no you dont i get it
did not know the links were dynamic now
 Sent at 12:57 AM on Sunday
 Melissa Ashforth: but its not going to the right area grrr
 Donworks: I am back
 Melissa Ashforth: cool
 Donworks: sorry for my long absence
 Melissa Ashforth: ivan let me show you what i mean
 Kwan-Ngai Chiu: ok
 Melissa Ashforth: when you click on the arrows on the higher education page it takes
you to this page http://www.happ ygroup210.pisce screations.com/ Happiness/whats -
happynin/
but that is a whats happynin link that should be going to http://www.happ
ygroup210.pisce screations.com/ Happiness/highe r-education/wha ts-happynin/
 Kwan-Ngai Chiu: yes
 Melissa Ashforth: one shows 1 link the other shows a forum
 Kwan-Ngai Chiu: i know that
 Melissa Ashforth: ok
 Sent at 1:01 AM on Sunday
 Melissa Ashforth: confused now
it is the same page? but one shows a link the other shows a forum
anyone mind if I change the permalinks real quick?
 Sent at 1:03 AM on Sunday
 me: sure, sorry I was finding my to-dos in this chat for everyone. email is going out
soon...
 Sent at 1:04 AM on Sunday
 Donworks: Again, I'm here now. I'll set the CSS changes we discussed.
 me: Here is your list don:
 Melissa Ashforth: sweet
 me: DON'S TO-DO:

1. can you adjust the alignment of the second nav in the sidebar to match the one above,
like on page: http://www.happ ygroup210.pisce screations.com/ Happiness/condu ct-a-
happiness- initiative/ both for the happiness and youth/mogul pages/css

2. Add css for the post pages secondary nav to match all the other sidebar navs. make this
nav on post pages look like how they should. example page where nav needs to be
formatted:http://www.happ ygroup210.pisce screations.com/ Happiness/conte nt-for-

make-hap py-decisions/

3. Also remove the whitespace below the footer; do a back up of all changed files though in case your idea doesn't work.

4. And getting the arrows to alternate on hover

5. remove orange box around donate button. I added css input{border:.. .} to the css to make the text fields show up in a comtact form but now its on the donate button. Please adjust to keep the border on the form input but not the donate button, etc. forms only.
 Sent at 1:07 AM on Sunday
 Donworks: Okay
thanks
 Sent at 1:08 AM on Sunday
 me: one more thing I just thought about Don: 6. Update design specs file if necessary.
 Sent at 1:11 AM on Sunday
 Donworks: Will do. And just asking... what's the time frame again?
 Sent at 1:12 AM on Sunday
 me: i plan to post to the client site by noon tomorrow. hoping not to slip too much from that time
 Melissa Ashforth: I dont know what to do about this social bar its not taking what im asking it to do
 Donworks: yipes! a long night
the plan for the white space might be tough but I'll try.
 me: ya, i plan to be up tonight too....it's over after tomorrow
 Kwan-Ngai Chiu: hey, i can change the link, but the client has to go into the code and make some changes.
 Melissa Ashforth: what do you suggest i cant get the plugin to do anything
 Donworks: Can you explain the alternating arrows?
 Sent at 1:18 AM on Sunday
 me: Don, the arrows on the landing pages in widget areas are not turning blue to orange or orange to blue (depending if you a re on the happiness pages or the social mogul pages)
can ivan figure out the problem with the toolbar melissa?
maybe its a template issue?
 Melissa Ashforth: dont know
it says to put in the page ids I do and they dont show up its weird
 me: and don tried and it still didn;t work, right?
 Melissa Ashforth: im looking for a site for help but not finding any
yea he took the numbers and put them in and resubmitted them
 Sent at 1:22 AM on Sunday
 Donworks: these are the #'s I pasted and updated: 0,52,54,56,58,6 1,63
 Melissa Ashforth: that is what i sent you i know im just saying its not doing what it is supposed to maybe ill uninstall it and reinstall it
??

me: you know that redirect issue with the forum, there are other instance of it. If you look at the site architecture, there are links on pages that direct to the pages in other locations of the site.
you can try that melissa
 Sent at 1:25 AM on Sunday
 Melissa Ashforth: I have no clue what you just said
what redirect issue
the page ids are correct for that plugin is that what your talking about or is this something else?
 me: redirecting the Whats Happynin widget link to the forum page....that is not the only time this has to happen on the site. if you look at the site map, any green boxes are links to pages that live elsewhere on the site. They are just links (green boxes)
 Sent at 1:27 AM on Sunday
 Melissa Ashforth: it is going to the same page he has it dynamic to do that if you click on the link from the higher education page you will notice they are the same page they go to but one has a link the other has a forum
 Kwan-Ngai Chiu: i made that already
try now
 me: exactly but it should only be the forum.
AWSOME!
how did you do that because I have to do the same with other pages??
 Melissa Ashforth: im getting really confused i am now lst i dont know where i am or where to start um did you send out the to do list so i can just go off the list. im mixing the things your asking me to do up
 Kwan-Ngai Chiu: i even did in the sidebar too
 me: this needs to be in the documentation
 Kwan-Ngai Chiu: tell me what pages you need to do the same thing, let me change it all.
 Sent at 1:31 AM on Sunday
 me: the easiest way to do that is for you to look at the sitemap: http://www.desi gnjenesis.com/w eb210/happiness _initiative-sit emap%20HIversio n_V3.pdf

then look at the green dotted boxes and lines. The green boxes are "links" that point to a page (solid black box) which is where the link takes you to. However, these links must show up in the appropriate navbar (side or main depending on the the location in the sitemap). Let me know if you need help or more explanation
 Sent at 1:34 AM on Sunday
 me: its getting close guys!
 Sent at 1:37 AM on Sunday
 Melissa Ashforth: im looking up documentation for social toolbar are you still working on a to do list for me jenifer?
 me: i sent an email earlier
 Melissa Ashforth: crazy i just got it
 me: shit, i thought i sent it. just fdid
Ivan, did my explanation make sense?
 Sent at 1:43 AM on Sunday
 me: i am now focusing on the utility nav pages just so everyone knows

btw, what does the custom field "template_name" do?

Kwan-Ngai Chiu: Yes, i am doing it now

easy

me: sweet'

Sent at 1:46 AM on Sunday

Melissa Ashforth: im doing it im uninstalling that thing and trying it again

Sent at 1:47 AM on Sunday

Kwan-Ngai Chiu: jennifer, a question,

me: sure...

Kwan-Ngai Chiu: the policy masking data under How happy are we will be linked to the policy post in conduct a HI?

me: yes

Kwan-Ngai Chiu: but if you go to the policy masking data page, there are the content of policy already.

and if the text will be the same, why do i have to change that?

me: that page would have data on it. the policy page will list policy inititatives made or will be made. they will have different content.

Kwan-Ngai Chiu: ok

Sent at 1:55 AM on Sunday

Kwan-Ngai Chiu: and i dont see Business Practices post in How happy are we?

Donworks: Jen?

Sent at 1:57 AM on Sunday

me: Business practices is under conduct a happiness initiative

yes, don

Sent at 1:59 AM on Sunday

Donworks: if you look on conduct a hap ini page, and see the change, it bumps the bird's beak a bit. Also, do you want the h2 tag changed as well?

http://www.happ ygroup210.pisce screations.com/ Happiness/condu ct-a-happiness-initiative/

I would think "Take Initiative" stays as is

Melissa Ashforth: where did the links go?

Sent at 2:01 AM on Sunday

Donworks: disregard the questions

me: yes, change the h2 tag and add padding or margin to the link box to bump the tweet box down. Actually, just add a top margin to the tweet box. you might then have to adjust the bird too to get it resting on the line.

Donworks: oh, okay

glad I asked

Sent at 2:04 AM on Sunday

Melissa Ashforth: looks like issues with this plugin will cost 25 if i need help

which is included with the pro version

it says its on the free one but its not working anymore you saw it working before I dont know why its not now

me: its getting annoying...

Melissa Ashforth: im really annoyed yes

Sent at 2:09 AM on Sunday

me: Ivan, what was that social media plugin you found?
 Melissa Ashforth: can someone try to add these pages again to the thing
52,54,56,58,61, 63
its under social toolbar social toolbar
 me: sure, where do i go to addthe pages
ok
 Melissa Ashforth: and it goes in the display on specific pages
then save settings
 me: done
 Melissa Ashforth: they are not on the page
 me: nope
 Melissa Ashforth: no i mean they are not in the settings
where you put them it would show the numbers
there they go is the pages working?
 me: it shows the numbers in the input box where i put them
 Melissa Ashforth: it is now yea
but not going to the pages this is really ticking me off
 me: i hear ya. i don't know why it is not working anymore....
 Melissa Ashforth: now the only way to get it working is to have it on every page this is
dumb
 me: ya, i just checked the box for home page and it worked. maybe its the "syntax" in
how you in the page numbers?
 Kwan-Ngai Chiu: http://www.happ ygroup210.pisce screations.com/ Happiness/how-h
appyare-we/poli cy-making-data/
i think this is what you want
 Sent at 2:18 AM on Sunday
 Melissa Ashforth: i just tried to change permalinks so let me know when i can
 Kwan-Ngai Chiu: change permalinks to default?
 Melissa Ashforth: yea for a min
 Kwan-Ngai Chiu: ok, do it.
Don, and jennifer
i found a problem in what makes you happy, the bubbles have problem
you guys know that?
 Sent at 2:21 AM on Sunday
 Donworks: what happened?
 Melissa Ashforth: i had to change permalinks for a sec its back to where it was sorry
 Kwan-Ngai Chiu: i dont know, i didn't touch wmyh template and the css lol
 Donworks: phew!
 Melissa Ashforth: did not mean to scare you
 me: ya, we know that. i assigned it to fix it.

as for the link, Policy Making Data does not link to Policy. Create a new link under "How
Happy Are WE?" after Research and Reports, called "Policy". This will also show in the
main nav pop up. They will link to the policy page under Conduct a happiness Initiative.
make sense ivan?
 Sent at 2:24 AM on Sunday

Kwan-Ngai Chiu: oh, ok
Sent at 2:26 AM on Sunday
me: Hey Ivan, I am having a proble adding pages/posts of links in the nav bar putting an linking content.
and linking*
Sent at 2:39 AM on Sunday
me: for instance, under Keep the Happiness Coming, I have two pages (really they are posts like other subpages). They show up under KTHC page but the sidebar links for them (Services We Offer and Give) either don't go anywhere or are blank. What am i doing wrong?
Sent at 2:41 AM on Sunday
me: ivan, you there?
Kwan-Ngai Chiu: yes
i am looking
me: ok
Sent at 2:43 AM on Sunday
Kwan-Ngai Chiu: did you add the (Services We Offer and Give) to be the child of KTHC?
Sent at 2:45 AM on Sunday
me: i just did with services we offer under edit the page but it still doesn't work
Kwan-Ngai Chiu: i see that
services appears
Donworks: hey, how do I edit css.php?
me: ya, it shows up under the category name "Give and Services" b/c its a post but it doesn't take you to that post
Melissa Ashforth: what plugin?
Sent at 2:47 AM on Sunday
me: Don, you need to know what plugin it pertains to
Kwan-Ngai Chiu: jennifer
http://www.happ ygroup210.pisce screations.com/ Happiness/keep- the-happiness-c oming/
looks
it that what you want?
me: right, then click on services we offer. there is no post page.
Sent at 2:49 AM on Sunday
Kwan-Ngai Chiu: ya, i will look at it.
me: ok
Sent at 2:51 AM on Sunday
Kwan-Ngai Chiu: it works now
Sent at 2:58 AM on Sunday
me: can we get rid of the first set of redundant links under KTHC and keep the ones under Give and Services
Sent at 2:59 AM on Sunday
me: i have to add two more subpages under Services we offer. can i do that?
three more actually and two under give

Kwan-Ngai Chiu: yes, just add an if statement, but i see a lot of Give, are they going to be linked to the same page? or post?
wow
i didn't try that before
 me: ya, it's confusing looking
 Sent at 3:02 AM on Sunday
 me: any give links should be linked to the main Give page but I need to add two more pages under that
 Sent at 3:03 AM on Sunday
 me: Give and services pages should would work like the offices page where it links to more pages (i.e. cities for the offices page)
 Kwan-Ngai Chiu: oh, i think you can do that
 Sent at 3:06 AM on Sunday
 me: i just tried. Consulting under Services We Offer and it doesn;t show'
 Kwan-Ngai Chiu: let me see ...
 Sent at 3:13 AM on Sunday
 Kwan-Ngai Chiu: i think because you put the Consulting post in draft
i publish it, and it appears now
 Sent at 3:16 AM on Sunday
 Melissa Ashforth: jennifer what do you think about that other one i showed you that was on the side? not sure if i can pick what pages they go on but what do you think good idea?
 Sent at 3:17 AM on Sunday
 me: ok, here is the problem: when you go to KTHC, you should get that header and Services We Offer and Give as links. When you click on Services we Offer, you will get the aforementioned links plus Consulting under Services. right now, the KTHC page has sredundant sets of links.
i may jusy be getting tired and not paying attention to what i'm doing at this point...
 Sent at 3:19 AM on Sunday
 Kwan-Ngai Chiu: so, you want to me get rid the links in category or links in pages?
 Sent at 3:21 AM on Sunday
 me: I just want the KTHC page to look like the Youth page with Youth header replaced by KTHC header with the links Services WE Offer and Give under with the content of the KTHC being short intros about both. Then the Services We offer will look like the offices page with A set of sublinks Consulting, Seminars, Talks & Lectures
 Sent at 3:28 AM on Sunday
 me: How is everyone doing?
 Sent at 3:30 AM on Sunday
 Melissa Ashforth: i cant figure out that plugin so im looking for a better one i have imed a few ideas but i have not got a respionse so i dont know what you want me to do the one we have is the best one so far and the only one that allows choices. ive posted something in here a few times so i dont remeber everything i said but thats where im at
 Sent at 3:33 AM on Sunday
 me: Well, I'm thinking if we pull this off, I'll buy everyone some drinks/pizza, what have you this week
 Sent at 3:35 AM on Sunday

Melissa Ashforth: im up for going out whenever is best for everyone. can you let me know what you want me to do with this plugin
Sent at 3:36 AM on Sunday
me: i say ditch it if the one that Ivan found would work. If it's added to the sidebar, it can only show up on the youth pages.
Melissa Ashforth: ivan what plugin is she talking about?
Kwan-Ngai Chiu: what plugin?
Melissa Ashforth: social media
me: it was the social media plugin you showed me a while ago
Kwan-Ngai Chiu: the facebook thing?
addthis?
i dont really remember lol
me: i think so
Kwan-Ngai Chiu: I think I cannot enjoy boss' pizza and drinks
I am leaving on Wednesday night.
me: well, we plan for a day before that!
Kwan-Ngai Chiu: ....
if i am free, i will go
me: ok, we can plan after we get this d one
Kwan-Ngai Chiu: cuz i have a lot of stuff to pack up
yes
me: i understand
Sent at 3:42 AM on Sunday
Donworks: how's everyone doing?
me: i asked the same thing!
Kwan-Ngai Chiu: doing ok here
me: getting tired here but still plugging away. Ivan, how are things coming along with the KTHC pages and links?
Melissa Ashforth: im still lost im i trying your plugin or looking for a new one or what
Kwan-Ngai Chiu: i am still thinking
Sent at 3:44 AM on Sunday
me: this is the progress I like: the KTHC page is perfect if you can delete the Give and Services header and links under that.
Kwan-Ngai Chiu: do you want a slide show in KTHC page?
me: sure, for consistency with other higher level pages
Sent at 3:48 AM on Sunday
Donworks: Hey folks, how late do you plan to be up and be up tomorrow?
oops, plan to be up tonight, and to be up tomorrow?
me: i havent decided, getting tired but i might stay up until ths is done
Donworks: I will shoot for all but the whitespace. that's something I'm very apprehensive to attempt at this late juncture
Melissa Ashforth: i will also
me: i agree Don. Don't stress about it. IT would be a "nice-to-have" to fix but I don;t think it ruins the site.
Sent at 3:53 AM on Sunday
Kwan-Ngai Chiu: jennifer

Content of Keep the Happiness Coming

..

http://www.happ ygroup210.pisce screations.com/ Happiness/keep- the-happiness-c oming/

is this ok?

me: thats it

Donworks: A couple of questions so far, btw...

me: but the header links "Services we offer" needs to go to the page that looks like this:http://www.happ ygroup210.pisce screations.com/ Happiness/keep- the-happiness-c oming/services- we-offer-2/

Yes, Don?

Donworks: I'm sorry- I'll get back to you. :^)

me: okie dokie

Sent at 3:57 AM on Sunday

Donworks: well, actually- one thing so far...

me: the sidebar nav alignment looks good btw

the only thing i noticced is the font weight of the links on post pages is lighter, like on: http://www.happ ygroup210.pisce screations.com/ Happiness/city- 2/

Sent at 4:00 AM on Sunday

Donworks: thanks. the bird issue has been troublesome but I'll get back to that later.

That was what I was going to ask you about...

the list items need to be h4

I'm still a bit confused about adding that html tag through wp.

Sent at 4:02 AM on Sunday

me: i am too. Ivan, how would Don so that?

do that?

Sent at 4:03 AM on Sunday

Melissa Ashforth: add that for what?

the bg?

Donworks: And Jennifer, I'm also unsure how to add margin-top to the plugin CSS of Happy Tweets. I could add padding to the bottom of the list above, but that doesn't effect the words "Happy Tweets"

me: how Don edits an h4 tag in WP?

Melissa Ashforth: with the css?

me: Don, I was able to manipulate the Tweet box and Bird on wednesday. I'll serach for the file and tell you where its at

Donworks: I need to add h4 tags to a list

not plural. h4 tag

Melissa Ashforth: what list?

Donworks: that's cool- thank you.

Sent at 4:08 AM on Sunday

Donworks: Melissa, if you look here, it's formatted consistent to the other sidebar lists, except that it's not bold via h4... http://www.happ ygroup210.pisce screations.com/ Happiness/game- of-happy-life/

Melissa Ashforth: the sidebar?

sorry slow im tired

Donworks: me too
drinking an energy drink
 Sent at 4:10 AM on Sunday
 Melissa Ashforth: they are in h4 tags
 Sent at 4:12 AM on Sunday
 Donworks: no, they're just
are you looking at Game of Happy Life?
 Sent at 4:14 AM on Sunday
 Melissa Ashforth: <!-- Begin show pages in posts-->
     <div id="related_pag es_list">
           <?php if(is_single()) :?>
                <?php $related_page = get_post_meta($ post->ID, 'related_page', true);?>
                <?php $related_page_i d = get_ID_by_slug($related_page); ?>
                <?php   // get the post by the id
                $page = get_post($relat ed_page_id);

                // get the title in the page
                echo "<h1>" . $parent_title = $page->post_tit le . "</h1>";

                ?>
                <?php echo getChildPagesLi st($related_pag e_id) ?>
           <?php endif;?>
     </div>
     <!-- End show pages in posts-->
thats where it should be changed in sidebar.php for the h4 around the get child pages I
believe
brb
 Sent at 4:18 AM on Sunday
 Donworks: Melissa, you nailed it!
Silly me- it's so obvious! :^P
 Sent at 4:28 AM on Sunday
 Melissa Ashforth: i did not want to override anything or i would have done it for ya
 Donworks has left.
 Donworks (donworks@gmail.com) has joined.
 Donworks has left.
 Donworks (donworks@gmail.com) has joined.
 me: Don, try adding this to OUR styles.css:
#xmt_primary.wi dget-container widget_xmt_Prim ary {
oops
 Sent at 4:35 AM on Sunday
 me: #xmt_primary.wi dget-container widget_xmt_Prim ary {height:350px;
margin:160px 0 50px 0}
 Sent at 4:36 AM on Sunday
 me: let me know if that works Don
 Sent at 4:38 AM on Sunday
 me: ivan, how are we on the services pages, etc?

Sent at 4:39 AM on Sunday
me: Don, also add a width of 225px to that selector
Sent at 4:41 AM on Sunday
Donworks: that was supposed to be for the bird, right?
happy tweets, I mean
me: its for the whole twitter thing
Donworks: right
Sent at 4:43 AM on Sunday
Donworks: of course- I see- I was on the same track...
me:
Ivan, where are you?
Donworks: bad news- no change
me: argh
Donworks: I'll save that for last.
the sidebar text is formatted and the happy tweets placement works for all except one
page...
wait
me: i tried editing the css for the plugin and it didn't work. drives me crazy b/c i edited
the bird and the border on wednesday
Kwan-Ngai Chiu: what else you want me to change in services page? go take a look and
tell me more detail please.
i am working on the documentation
Sent at 4:47 AM on Sunday
me: all it is is deleting the second set of lower links and header on the KTHC page.
Sent at 4:49 AM on Sunday
Kwan-Ngai Chiu: i tried that, but you need to make some css on sidebar, cuz the tweet
will goes up and covered the list of the pages.
Sent at 4:51 AM on Sunday
me: ok, then Don, with the tweet thing, instead add margin-bottom to the sidebar navs.
Ivan, go ahead and delete.
Kwan-Ngai Chiu: ok
Sent at 4:55 AM on Sunday
me: ivan, did you finish all of the redirect pages?
based off of the site map?
Sent at 4:59 AM on Sunday
Kwan-Ngai Chiu: i think I did.
me: i see how you did it. if not, i think I can do it
Kwan-Ngai Chiu: i think melissa had done the give, take survey before
me: how do you attach the footer links to the appropriate pages?
Kwan-Ngai Chiu: go to footer.php and change the links lol
cuz it's not a menu
me: i see that...should it be so it's easy for the client whithout having to go in the hard
code?
Kwan-Ngai Chiu: ok
i will register the footer menu
me: cool! thanks

Sent at 5:03 AM on Sunday
Donworks: Man, I wish that rooster would clam up. I'm trying to work here.

me: haha, i'm bout to fall on my face
Melissa Ashforth: i feel ya
Donworks: this is some serious happiness
me: i loathe happiness
Sent at 5:18 AM on Sunday
Melissa Ashforth: getting tired
Sent at 5:23 AM on Sunday
Kwan-Ngai Chiu: melissa, do you remember how we get the | to be the utility menu separator?
me: i don't see the donation box on the give page
Melissa Ashforth: give me a sec
Sent at 5:25 AM on Sunday
Melissa Ashforth: anyone working on the footer
Donworks: nope
Kwan-Ngai Chiu: i am working on the footer
Melissa Ashforth: http://www.happ ygroup210.pisce screations.com/ Happiness/give/
Kwan-Ngai Chiu: try to make a footer menu
Melissa Ashforth: can you put that in the footer give link
Kwan-Ngai Chiu: did
me: i need it one this page: http://www.happ ygroup210.pisce screations.com/ Happiness/keep- the-happiness-c oming/give/
Kwan-Ngai Chiu: you have to put in a page
Melissa Ashforth: <?php

    wp_title('|', true, 'right');

    ?>
Kwan-Ngai Chiu: that's for title
Melissa Ashforth: the give page is there
that is the link to it
but it needs to be done with the footer also
Kwan-Ngai Chiu: http://www.happ ygroup210.pisce screations.com/ Happiness/give/
this is a post
me: right, but that one needs to be deleted and move the form to the link i sent you
this way it shows up in the nav according to the site architecture
under keep the happiness coming>>Give
and i have to remove it from the utility nav.
Kwan-Ngai Chiu: cannot delete the Give post
if you deleted that
no give content will show in KTHC
Melissa Ashforth: why would you delete the give post dont do that
Kwan-Ngai Chiu: we need a give post, and a give page,
Melissa Ashforth: if you do that the sidebar goes out of wack when the form in in it

I agree

me: i just want the form added to this page:http://www.happ ygroup210.pisce screations.com/ Happiness/keep- the-happiness-c oming/give/

 Melissa Ashforth: Ivan I know we did it with jquery looking for what exactly

 me: it was the whole ":not" thing i think

 Kwan-Ngai Chiu: oh, ya, i remember now

 Melissa Ashforth: i can only do one thing at a time . ahhhhhh there is only a short code you would add to get that on that page give me a sec

 me: i added the short code and it doesn't show...

 Melissa Ashforth: into the page or post?

 Sent at 5:36 AM on Sunday

 me: see i added it here but it doesn;t show after it has been saved:http://www.happ ygroup210.pisce screations.com/ Happiness/final /wp-system/wp-a dmin/post.php?p ost=292&action= edit

 Sent at 5:38 AM on Sunday

 Kwan-Ngai Chiu: and, can jennifer or don work on the css of the footer menu?

 Sent at 5:40 AM on Sunday

 Melissa Ashforth: want a cheat for it??

ivan

instead of using after use before

and get rid of the period after inititive

 Sent at 5:42 AM on Sunday

 Kwan-Ngai Chiu: if it shows in 1 line, that will be good

 Melissa Ashforth: jennifer what do you think about making the give page a template?

I cant take it anymore must go to bathroom beb

brb

 Sent at 5:44 AM on Sunday

 Melissa Ashforth: ok

 me: if it solves the problem, sure

 Sent at 5:47 AM on Sunday

 Melissa Ashforth: could also add a link to the permalink in the nav instead of a menu

 me: whichever works and is easiest. i'm getting too tired to care

 Sent at 5:50 AM on Sunday

 Kwan-Ngai Chiu: damn, almost 6am

i think i will go take a rest after i finish my documentation

too tired

 me: d'oh, you see this is the problem with adding content to a page, the sidebar gets knocked dow, thats why i have been using posts: http://www.happ ygroup210.pisce screations.com/ Happiness/happi ness-research-f acts/articles-b ooks/

 Kwan-Ngai Chiu: hey

if you got that problem

 Melissa Ashforth: jennifer give fixed try them all looks like they are good

 Donworks: Hey, sorry to interrupt...

 Kwan-Ngai Chiu: add the custom field, template_name = wmyh or youth

 Donworks: speaking of sidebar, some good news- I finally fixed the happy tweets positioning

Kwan-Ngai Chiu: good job:)
Donworks: thanks Ivan. are the ladies passed out?
Melissa Ashforth: nope still here
me: didn't work ivan
awesome melissa!
what did you do?
Melissa Ashforth: i clicked on the give post on the page you were working on
Sent at 5:58 AM on Sunday
me: Hey Don, it looks like the positioning still needs to be worked on post pages like:
http://www.happ ygroup210.pisce screations.com/ Happiness/sugge stions/
otherwise, it's looking good
Melissa Ashforth: ahhhhhh hahahaha here you go ivan

```
    {
        $(".popupmain") .hide();
        $("#popups img").hover(sho wText, hideText);
        $("#menu-utilit y-menu li a:not(:last)"). after(" | ");
        $("#menu-footer -menu li").after(" | ");

    });
```
opps here you go

```
$(function ()
    {
        $(".popupmain") .hide();
        $("#popups img").hover(sho wText, hideText);
        $("#menu-utilit y-menu li a:not(:last)"). after(" | ");
        $("#menu-footer -menu li").after(" | ");

    });
```
i guess we would just make it like
```
$(function ()
    {
        $(".popupmain") .hide();
        $("#popups img").hover(sho wText, hideText);
        $("#menu-utilit y-menu li a:not(:last)"). after(" | ");
        $("#menu-footer -menu li a:not(:last)"). after(" | ");

    });
```

me: what happened to thr tagline under the logo?
Melissa Ashforth: anyone in header ?
i can save and see if it worked if no one is editing head
someones messing with sidebar who is it???
Donworks: I was about to ask the same thing
Melissa Ashforth: nope its headder huh
Donworks: is anyone working on sidebar.php?

me: not me

Melissa Ashforth: im in header but i havent saved it so nothing should be wrong on my end

Kwan-Ngai Chiu: no, didn't

Donworks: Okay, I think my h4 changes were overwritten
I'll do that now and save

Sent at 6:04 AM on Sunday

Melissa Ashforth: ivan it worked

Sent at 6:08 AM on Sunday

Melissa Ashforth: I think it is smoke break time brb

Sent at 6:10 AM on Sunday

me: contact page and form is up

Sent at 6:12 AM on Sunday

Kwan-Ngai Chiu: ya, almost done

Sent at 6:14 AM on Sunday

me: oh geez, look at the pop uo nav for how hapy are we. the links linking to other pages is making the spacing wonky

Sent at 6:16 AM on Sunday

Kwan-Ngai Chiu: i know why
i can fix that

Sent at 6:19 AM on Sunday

Melissa Ashforth: do you think we could preload the sidebar so that when we open a page the sidebar doesent cover logo then go where it needs to go

Sent at 6:21 AM on Sunday

me: good question melissa. that would be ideal

Melissa Ashforth: im so tired i dont know what to do about that
just thought it would be a good idea

me: i see the light at the end of the tunnel thought. or it could be the sunlight coming thru the windiw. ;0

Kwan-Ngai Chiu: jennifer, cannot fix the main nav

me: is thre a way to access this whole conversation? I'm thinking that we just copy/paste this convo for the bug list.

Kwan-Ngai Chiu: i think the <a> tag takes place too

Donworks: I thought I saw light at the end of the tunnel...

Kwan-Ngai Chiu: sun raised

Donworks: nevermind- was going to be a bad joke.

me: the only pages and links left to build are Happiness Reserach and Facts and The Team
is thre a way to access this whole conversation? I'm thinking that we just copy/paste this convo for the bug list.

Sent at 6:28 AM on Sunday

Melissa Ashforth: i cant seem to get it to
i cant copy and paste either

Sent at 6:29 AM on Sunday

me: i copied it into the bugs doc
what we have anyway. we are missing the first half of the chat

it's better than nothing!
 Sent at 6:31 AM on Sunday
 Donworks: did you lose the first half?
 me: ya, i think so. i doesn't apear in the chat window
 Donworks: I was dropped so I can't check. What's the first line?
 me: this is the first line:Melissa Ashforth: area those numbers need to go there
i know it seems dumb i cant do it but really it wont show up if I use my pc when i did it at
sschool it worked
then save settings
